## Experience the experienced:

*SMS Europe Ltd are a professional, independent provider of health and safety consultancy and training. Established in 1993, we have been carrying out Fire Risk Assessments since they became a legal requirement in 1997. We provide services for both the public and private sectors. We have a reputation for the quality of our services with high customer satisfaction over a period of years. We work nationally and our consultants are fully qualified fire risk assessors..*

### Friendly and effective

Our friendly and knowledgeable consultants are people you will enjoy working with. They have proven track records of providing fire risk assessments and advice to a wide range of companies and premises in a variety of sectors.

#### Sectors

Public, Further Education, Engineering, Manufacturing, Retail Historical buildings Architecture, Hotels/hospitality amongst many more

### The Law

- SMS Europe can carry out a legally compliant Fire Risk Assessment of your premises in order to help you meet your obligations under the Regulatory Reform (Fire Safety) Order 2005.
- The FSO applies to all non-domestic premises in England and Wales, including the common parts of blocks of flats and houses in multiple occupation (HMOs).

#### The law applies to you if you are:

- Responsible for business premises
- An employer or self-employed with business premises
- Responsible for a part of a dwelling where that part is solely used for business purposes
- A charity or voluntary organisation
- A contractor with a degree of control over any premises
- Providing accommodation for paying guests

### What does a Fire Risk Assessment involve?

A competent fire risk assessor will visit your premises and conduct a complete fire risk assessment. The assessment will cover: Compliance with existing legislation; Sources of Ignition;;Emergency procedures; Layout and capacity of the premises; Structural fire issues; Means of giving warning; Means of escape; Suitability of fire fighting equipment; Signage and notices; Testing and Maintenance; Suitability of existing fire training. So now you know....
